

I spent a few minutes looking at the past treasurer reports and discovered a pattern. Apparently - other than being a pain in the ass to some participants, I have been asking the service body in many different ways the very same things.

Currently there are no approved budgets and we have no prudent reserve, so I will once again present motions to be discussed. This is simply following the guidelines that we have.

I believe I should be able to leave a service position knowing that I have completed a task that has been asked of me in a competent manor with ease for the next trusted servant to pick up where it may have been left.

The PO Box is due in Jan of 2009; I plan to stop in there this week to make sure it gets paid without lapse of service. The web domain name(s) are due in either Jan or Feb and need to be paid as well; I will get a hold of our web resource person and find out the specifics. As it turns out Daryl has mentioned this in his report by the time I re read this report before sending it out.

Hope to see all in Jamestown

Thanks for the opportunity to serve, Wes K
